As required under the CARES Act each jurisdiction must define their own threshold of "substantial dedication" for public safety and public health workers related to mitigating the Covid-19 pandemic.

As such it is the intent of the Village of Bancroft, in the County of Shiawassee, and State of Michigan to set the following standard and basis for the threshold of mitigating the Covid-19 pandemic as Substantially Dedicated:

- All Law enforcement personnel, under the Public Safety standard, responsible for interacting with the public and responding to all calls including cases of possible Covid-19.
- All Department of Public Works employees, under the Public Health personnel, involved with dealing with the public and maintaining necessary functions through the pandemic including responses with known and unknown cases of Covid-19.
- All employees processing payments and service requests, under the Public Health personnel, to include interacting with those paying bills and handling of bills that are paid through non-in-person contact. In addition to the processing of all Covid-19 related necessities, and support of Public Safety personnel and other Public Health Personnel.

It is the intent of the Village of Bancroft, to enact this standard effective from the beginning of the Covid-19 pandemic and to stand as such for any further pandemics now and in the future.
