

Department of public works monthly report

June 2020

June was business as usual here in the Village of Bancroft. Keeping the grassy areas maintained, keeping the weeds sprayed, keeping the equipment running. We had a preliminary inspection of the elevated water storage tank done by Nelson Tank to assess the condition of the paint. Their findings indicated that a complete paint job on the wet interior of the tank is needed, as well as the dry interior and the exterior needs to be recoated as well. For this inspection we did not have to take the tank out of service, it was completed with a submersible drone. After the bidding process the tank will have to be put out of service for a short time to complete the work. Here are some other projects I have been working on:

- 1- The arsenic test revealed an arsenic level of 1 part per billion.
- 2- Daily water testing
- 3- Change blades on zero turn mower.
- 4- Fabricate a new toilet paper holder for the park bathroom.
- 5- Till community garden area
- 6- Finish drainage for basket ball courts.
- 7- Paint and install trash cans at the ball field.
- 8- Keep trash cans empty.
- 9- Trim trees on fence line at ball field.
- 10- Jet out drain line on Shiawassee Street. (with help from City of Perry)
- 11- Clean out catch basins on Shiawassee Street.
- 12- Work on restoration of dig location on Higgins Street.
- 13- Water shutoffs due to nonpayment
- 14- Till play area at the park.
- 15- Fill water storage totes by raised planters, keep them full
- 16- Work on vac. Trailer power washer, and get a new suction hose.
- 17- Prepare park for 4th of July celebration. (clean up, mow, pull weeds, empty trash, install toilet paper holders)

I feel like things are coming along nicely and town is looking pretty good overall. The water is flowing, the drainage is draining, and the new rail crossing tuned out smooth. If something is lacking or needing attention, please let someone at the community hall know.

Thank you, and have a great day.

Sincerely: Your Friendly D.P.W Guy,

Kevin
